Independent Auditors' Report

**To the Board of Selectmen
Town of China
China, Maine**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of China, Maine, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of China, Maine, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on page 3, the Schedule of Changes in the Town's Total MMEHT Plan OPEB Liability and Related Ratios on page 45, the Notes to the Schedule on page 46, the Schedule of the Town's Proportionate Share of the Net Pension Liability on page 47, the Schedule of Town Contributions on page 48, and the Notes to the Schedules on page 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of China, Maine's basic financial statements. The combining and individual nonmajor financial statements and other schedules are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

Town of China, Maine

As management of the Town of China, Maine, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2020. The Town's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The Town's assets exceeded liabilities in the Statement of Net Position by approximately \$8.0 million and \$7.4 million as of June 30, 2020 and 2019, respectively.
- The Town's governmental funds General Fund Balance was \$2.1 million as of June 30, 2020, compared to \$2.1 million as of June 30, 2019.

Overview of the Financial Statements

The Management's Discussion and Analysis introduces the Town's basic financial statements. The basic financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The Town also includes in this report supplemental information to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements provide information about the activities of the Town as a whole and present both a long-term and short-term view of the Town's finances. Financial reporting at this level is similar to the accounting used by most private-sector companies.

The Statement of Net Position includes all assets (and deferred outflows) and liabilities (and deferred inflows), with the difference reported as net position. Over time, increases or decreases in the Town's net position is one indicator of whether its financial health is improving or deteriorating. Evaluation of the overall economic health requires other non-financial factors, such as changes in the Town's property tax base and the condition of the Town's roads, as well as many others.

The Statement of Activities reports the current year change in net position. This statement includes all of the current year's revenues and expenses regardless of when cash is received or paid.

- **Governmental activities:** Most of the Town's basic services are reported here, including public works, general administration, public safety and solid waste operations. Taxes, fees, fines, and state and federal grants finance most of these activities.

Management's Discussion and Analysis - Continued

Town of China, Maine

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Town uses funds to ensure and demonstrate compliance with finance related laws and regulations. Within the basic financial statements, fund financial statements focus on the Town's most significant funds rather than the Town as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report.

The Town has the following fund types:

- Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is different with fund statements reporting short-term fiscal accountability focusing on the use of spendable resources during the year and balances of spendable resources available at the end of the year. Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Town of China, Maine

Financial Analysis of the Town's Funds - Fund Financial Statements

Governmental funds. The focus of the Town of China, Maine's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town of China, Maine governmental funds reported combined ending fund balances at June 30, 2020 of \$3.8 million. Approximately 30% of this total constitutes unreserved and undesignated fund balance, which is available for spending at the government's discretion.

The general fund is the central operating fund of the Town of China, Maine. At the end of the current fiscal year the unassigned fund balance of the general fund was \$1,146,097. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures.

As of June 30, 2020, unassigned fund balance of the general fund increased by 4.73%. The current fund balance is approximately \$300,000 short of the Government Finance Officers Association recommendation. The current COVID-19 pandemic affected the budget.

Management's Discussion and Analysis - Continued

Town of China, Maine

The Town's general fund operating fund revenues were as follows:

Other revenues received decreased slightly from the prior year while intergovernmental revenues remained stable. Taxes (real estate, personal property and motor vehicle excise) continue to represent the largest source of revenue for the town.

Management’s Discussion and Analysis - Continued

Town of China, Maine

The Town’s general fund operating fund expenditures were as follows:

General Fund Budgetary Highlights

Overall, the town remains in a in a good position with respect to its fund balances, showing an unassigned fund balance exceeding \$1.1 million.

Capital Assets

The town continues to plan for replacement of equipment and plan major expenditures. Three-phase power to the transfer station was completed this year.

Long Term Liabilities

The town had no long-term liabilities or indebtedness.

Management's Discussion and Analysis - Continued

Town of China, Maine

Economic Factors and Next Year's Budgets and Rates

The current worldwide pandemic may continue to affect expenses and revenues. Management will be closely monitoring expenses and revenues to effectively provide sound fiscal guidance. The mil rate for fiscal year ending 6/30/2020 rose to 16.3 from 15.8.

Contacting the Town's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Office at 445-2014 and ask for the Town Manager. Citizens are welcomed to visit with the appropriate staff on any financial matters.

**Reconciliation of Governmental Funds Balance Sheet
to the Statement of Net Position**

Town of China, Maine

As of June 30, 2020

Total Fund Balances - Governmental Funds	\$	3,840,412
Amounts reported for governmental activities in the Statement of Net Position is different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of capital assets, net of accumulated depreciation is:		4,228,186
Property tax revenues are presented on the modified accrual basis of accounting in the governmental funds but in the Statement of Activities, property tax revenue is reported under the accrual method. The balance in unavailable revenue - property taxes in the governmental funds as a deferred inflow is:		177,000
The following deferred outflows below are not current assets or financial resources and the following deferred inflows are not current liabilities due and payable in the current period and therefore are not reported in the Balance Sheet:		
Deferred outflows related to OPEB	\$	82,147
Deferred inflows related to OPEB		(5,683)
Deferred outflows related to pension		63,879
Deferred inflows related to pension		<u>(38,588)</u>
		101,755
Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term and related liabilities at year-end consist of:		
Accrued compensated absences		(95,623)
Net OPEB liability		(154,968)
Net pension liability		<u>(117,139)</u>
		<u>(367,730)</u>
Net Position - Governmental Activities	\$	<u>7,979,623</u>

See accompanying independent auditors' report and notes to the financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Town of China, Maine

As of June 30, 2020

Net Change in Fund Balances - Total Governmental Funds \$ 208,712

Amounts reported for governmental activities in the Statement of Activities are different because:

Property tax revenues are presented on the modified accrual basis of accounting in the governmental funds but in the Statement of Activities, property tax revenue is reported under the accrual method. The current year change in unavailable revenue - property tax revenue reported in the governmental funds and not in the Statement of Activities is: (62,000)

Governmental funds report capital asset additions as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense and capital asset additions were different in the current period:

Capital asset additions	\$ 807,020	
Depreciation expense	<u>(352,093)</u>	
		454,927

Governmental funds report the long-term obligation payments made by RSU #18 on behalf of the Town as revenues. However, in the Statement of Activities, these amounts are reported as a reduction of the receivable from RSU #18 . (64,370)

Bond proceeds, issuance of long-term debt and entering into capital lease obligations provide current resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt and capital lease obligation principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the amount by which repayments differed from proceeds and additions to debt and capital lease obligations in the current period:

Reductions in capital lease obligations		<u>64,370</u>
---	--	---------------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Change in accrued compensated absences	1,789	
Change in accrued interest payable	1,400	
Adjustment to OPEB	(14,586)

Notes to Financial Statements

Town of China, Maine

Note A - Summary of Significant Accounting Policies

The Town of China, Maine operates under a Selectboard - Town Manager form of government. The accounting policies of the Town of China, Maine, conform to United States generally accepted accounting principles (GAAP). The Town applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. The more significant accounting policies established in GAAP and used by the Town are discussed below.

Principles Determining Scope of Reporting Entity

The basic financial statements include the accounts of all Town operations. The criteria for including organizations as component units within the Town's reporting entity, as set forth in GAAP include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the Town holds the corporate powers of the organization
- the Town appoints a voting majority of the organization's board
- the Town is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Town
- there is fiscal dependency by the organization on the Town

Based on the aforementioned criteria, the Town of China has no component units.

Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities report information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services for support. Currently, the Town has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Town does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Notes to Financial Statements - Continued

Town of China, Maine

Note A - Summary of Significant Accounting Policies - Continued

Government-wide Financial Statements - Continued

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which are considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures.

Governmental Activities

Governmental funds are identified as either general, special revenue, capital projects, or permanent funds based upon the following guidelines.

The *General Fund* is the operating fund of the Town and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific sources (other than major capital projects or expendable trusts) that are legally restricted to expenditures for specified purposes.

Permanent Funds are used to account for resources legally held in trust. All resources of the fund, including any earnings on invested resources, may be used to support the organization as stipulated by the specific trust instrument.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting is related to the timing of the measurements made, regardless of the measurement focus applied.

Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Notes to Financial Statements - Continued

Town of China, Maine

Note A - Summary of Significant Accounting Policies - Continued

Modified Accrual

Governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments.

Investments

The Town follows GASBS No. 31, Accounting and Reporting of Certain Investments and External Investment Pools. Under GASBS No. 31, certain investments held by governments are reported at their fair value in the balance sheet. Unrealized gains and losses are included in the statement of revenues, expenditures and changes in fund balance.

Capital Assets

In the government-wide financial statements, capital assets purchased or acquired with an original cost of \$3,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line method. Estimated useful lives are as follows: land improvements, 15 to 20 years; buildings and improvements, 20 to 50 years; infrastructure, 5 to 60 years; and vehicles and equipment, 3 to 25 years.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

Vacation and Sick Leave

Under the terms of personnel policies, vacation leave is granted in varying amounts according to length of service. Sick leave is granted in equal amounts to all employees. In some cases, employees are entitled to payment for unused vacation upon termination or retirement.

Notes to Financial Statements - Continued

Town of China, Maine

Note A - Summary of Significant Accounting Policies - Continued

Budget

The Town of China's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

- Early in the second half of the last fiscal year the Town prepared a budget for this fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- A vote of the inhabitants of the Town was then taken for the purpose of adopting the proposed budget after public notice of the vote was given.
- The budget was adopted subsequent to passage by the inhabitants of the Town.

The Town does not adopt budgets for special revenue funds, except for the Tax Increment Financing District.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Interfund Activity

Interfund activity is reported as loans, reimbursements, or transfers. Loans are reported as interfund loan receivables and payables as appropriate and are subject to elimination upon consolidation in the government-wide presentation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as a reimbursement. Since not all funds maintain a separate cash account, cash is pooled in the General Fund cash account and activity for individual funds are recorded through the General Fund and each respective individual fund through the recognition of a "due to/due from" as appropriate. The due to/from other funds balances are subject to elimination upon consolidation in the government-wide presentation. All interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as an expense in the period incurred.

Notes to Financial Statements - Continued

Town of China, Maine

Note A - Summary of Significant Accounting Policies - Continued

Long-Term Obligations - Continued

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position and the governmental funds balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until that time. The Town has two items that meet this criterion: 1) the deferred other postemployment benefits (OPEB) and 2) deferred pensions. Both items are reported in the statement of financial position.

In addition to liabilities, the statement of net position and the governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two types of items: 1) unavailable revenue, which results from property taxes, which arises under the modified accrual basis of accounting that qualifies for reporting in this category and is reported in the governmental funds balance sheet and 2) deferred inflows related to both the OPEB liability and pension liability which are reported in the statement of net position.

Revenue Recognition - Property Taxes

The Town's property tax for the current year was levied August 28, 2019, on the assessed value listed as of April 1, 2019, for all real and personal property located in the Town. Taxes were due September 27, 2019 and March 28, 2020. Interest on unpaid taxes commenced on September 28, 2019 and March 29, 2020, at 9% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as unavailable revenue from property taxes.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$53,537 for the year ended June 30, 2020.

Notes to Financial Statements - Continued

Town of China, Maine

Note A - Summary of Significant Accounting Policies - Continued

Revenue Recognition - Property Taxes - Continued

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

At June 30, 2020, 20% of the taxes receivable balance was due from one company.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the Town's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Maine Municipal Employees Health Trust, an agent single-employer defined benefit postretirement healthcare plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Pensions

In government-wide financial statements, retirement plans (pensions) are required to be recognized and disclosed using the accrual basis of accounting (see Note I and the required supplementary information beginning on page 47), regardless of the amount recognized as pension expenditures on the governmental fund statements, which use the modified accrual basis of accounting.

In general, the Town recognizes a net pension liability, which represents the Town's proportionate share of the excess of the total pension liability over the fiduciary net position of the pension reflected in the actuarial report provided by the Maine Public Employees Retirement System (MainePERS). The net pension liability is measured as of the Town's prior fiscal year-end. Changes in the net pension liability are recorded, in the period incurred, as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective pension plan and are recorded as a component of pension expense beginning with the period in which they are incurred.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Participating Local District (PLD) Consolidation Plan and additions to/deductions from PLD Consolidation Plan's fiduciary net position have been determined on the same basis as they are reported by the PLD Consolidation Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements - Continued

Town of China, Maine

Note A - Summary of Significant Accounting Policies - Continued

Pensions - Continued

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period of recognition.

Government-wide Fund Net Position

Government-wide net position is divided into three components:

Net investment in capital assets - consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.

Restricted net position - consist of net asset position that is restricted by the Town's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.

Unrestricted - All other net asset positions are reported in this category.

Governmental Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - resources which cannot be spent because they are either a) not in spendable form or; b) legally or contractually required to be maintained intact.

Restricted - resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed through constitutional provisions or enabling legislation.

Committed - resources which are subject to limitations the government imposes upon itself at its highest level of decision making, and that remain binding unless removed in the same manner.

Assigned - resources neither restricted nor committed for which a government has a stated intended use as established by the Selectboard or a body or official to which the Selectboard has designated the authority to assign amounts for specific purposes.

Unassigned - resources which cannot be properly classified in one of the other four categories.

Use of Restricted Resources

The Town has no formal fund balance policy. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance.

Notes to Financial Statements - Continued

Town of China, Maine

Note B - Cash and Investments

The Town conducts all its banking and investment transactions with depository banks and investment firms.

Custodial Credit Risk - Deposits

At June 30, 2020, the carrying amount of the Town's deposits was \$2,793,676 and the bank balance was \$2,822,821. The difference between these balances relates to deposits in transit and outstanding checks. Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy on custodial credit risk. As of June 30, 2020, \$760,664 of the Town's bank balance of \$2,822,821 was exposed to credit risk as follows:

Uncollateralized	\$ 209
Collateralized with securities held by the pledging financial institution	\$ 760,455

Investments

Maine statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, certain corporate stocks, bonds and mutual funds.

Interest Rate Risk

The Town does not have an investment policy on interest rate risk. At June 30, 2020, the Town had the following investments and maturities:

<u>Investment Types</u>	<u>Fair Value</u>	<u>Maturity</u>			
		<u>Not Applicable</u>	<u>Less than 1 Year</u>	<u>1-5 years</u>	<u>More than 5 years</u>
Equities	\$ 598,823	\$ 598,823	\$ -	\$ -	\$ -
Fixed income	431,671	18,592	50,983	231,782	130,314
Commodities	19,721	19,721	-	-	-
	<u>\$ 1,050,215</u>	<u>\$ 637,136</u>	<u>\$ 50,983</u>	<u>\$ 231,782</u>	<u>\$ 130,314</u>

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have an investment policy on custodial credit risk. As of June 30, 2020, the Town had no investments subject to custodial credit risk.

Notes to Financial Statements - Continued

Town of China, Maine

Note B - Cash and Investments - Continued

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Town does not have an investment policy on credit risk. At June 30, 2020, the Town had the following credit quality distribution in debt securities:

<u>Standard & Poor Rating</u>	<u>Fair Value</u>
AA-	\$ 15,826
A+	61,922
A	65,142
A-	63,973
BBB+	190,402
N/A	<u>34,406</u>
Total debt securities	<u>\$ 431,671</u>

Town of China, Maine

Note D - Interfund Receivables and Payables

Interfund balances at June 30, 2020, consisted of the following:

Governmental Activities:	<u>Due from</u>	<u>Due to</u>	
<i>General Fund:</i>			
<u>Special Revenue Funds:</u>			
Major Special Revenue Fund: TIF Fund	\$ -	\$ (555,258)	
Non-major Special Revenue Funds	68,464	(11,137)	
<u>Permanent Funds:</u>			
Major Permanent Fund: D.L. Young Scholarship	44,433	-	
Non-major Permanent Funds	<u>-</u>	<u>(122,175)</u>	
	112,897	(688,570)	\$ (575,673)
 <i>Major Special Revenue Fund:</i>			
General Fund	555,258	-	
Non-major Special Revenue Funds: CRLA	<u>-</u>	<u>(68,464)</u>	
	555,258	(68,464)	486,794
 <i>Non-major Special Revenue Funds:</i>			
General Fund	11,137	(68,464)	
Major Special Revenue Fund: TIF Fund	<u>68,464</u>	<u>-</u>	
	79,601	(68,464)	11,137
 <i>Major Permanent Fund: D.L. Young Scholarship:</i>			
General Fund	-	(44,433)	(44,433)
 <i>Non-major Permanent Funds:</i>			
General Fund	<u>122,175</u>	<u>-</u>	<u>122,175</u>
Net Governmental Activities	<u>\$ 869,931</u>	<u>\$ (869,931)</u>	<u>\$ -</u>

All interfund balances resulted from (1) the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made.

Notes to Financial Statements - Continued

Town of China, Maine

Note E - Interfund Transfers

Interfund transfers for the year ended June 30, 2020 consisted of the following amounts:

Governmental Activities:	<u>Transfers in</u>	<u>Transfers out</u>	
<i>General Fund:</i>			
Major Special Revenue Fund - TIF Fund	\$ 99,278	\$ -	
Non-major Special Revenue Funds	<u>-</u>	<u>(23,500)</u>	
	99,278	(23,500)	\$ 75,778
 <i>Major Special Revenue Fund - TIF Fund:</i>			
General Fund	-	(99,278)	
Special Revenue Fund - CRLA	<u>-</u>	<u>(20,000)</u>	
	-	(119,278)	(119,278)
 <i>Non-major Special Revenue Funds (CRLA):</i>			
General Fund	23,500	-	
Major Special Revenue Fund - TIF Fund	<u>20,000</u>	<u>-</u>	
	43,500	-	43,500
Net Governmental Activities	<u>\$ 142,778</u>	<u>\$ (142,778)</u>	<u>\$ -</u>

Transfers are used to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note F - Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2020, was as follows:

Governmental Activities:	Beginning			Ending	Amounts
	<u>Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance</u>	<u>Due within One Year</u>
Capital lease obligations	\$ 64,370	\$ -	\$ 64,370	\$ -	\$ -
Net OPEB liability	67,410	87,558	-	154,968	-
Net pension liability	116,195	944	-	117,139	-
Compensated absences	<u>97,412</u>	<u>67,354</u>	<u>69,143</u>	<u>95,623</u>	<u>45,000</u>
Total Governmental	<u>\$ 345,387</u>	<u>\$ 155,856</u>	<u>\$ 133,513</u>	<u>\$ 367,730</u>	<u>\$ 45,000</u>

Notes to Financial Statements - Continued

Town of China, Maine

Note G - Joint Venture (Interlocal Solid Waste Agreement)

The Town is a member of an interlocal solid waste agreement with 187 other participating municipalities. The Municipal Review Committee, Inc. (MRC) is a quasi-municipal non-profit, non-capital stock corporation established to own and operate a solid waste system to service its member municipalities. China joined MRC in 1991 and signed an agreement in the Spring of 2018 to stay in the joint venture until April 2033. MRC's Board of Directors annually considers distributing cash in excess of Board designated reserves back to the member municipalities. China's pro rata share determined by the amount of solid waste delivered to the plant in the past year did not result in a receipt for the year ended June 30, 2020. The Town's proportionate interest in the net assets of MRC on October 30, 2019, the date of MRC's most recent audited financial statements, was approximately \$304,000 (1.70%). Complete financial statements may be obtained from MRC at 395 State Street, Ellsworth, Maine 04605.

Note H - Postemployment Benefits Other than Pensions (OPEB)

Group Health Insurance Plan - Maine Municipal Employees Health Trust (MMEHT Plan)

Plan Description

Eligible Town employees are provided with health and life insurance through Maine Municipal Employees Health Trust (MMEHT Plan). The MMEHT Plan is a single-employer defined benefit OPEB plan. The Town's Board of Selectmen has authority to establish and amend the benefit terms. Employees are eligible if over the age of 55 with at least five years of service at retirement.

Benefits Provided

The MMEHT Plan provides healthcare and life insurance benefits for retirees and their dependents through payment of 100% of insurance premiums for single and family coverage. For employees eligible for Medicare, Medicare Parts A and B are primary coverage and the MMEHT Plan will determine a family member's benefit allowance based on applicable Medicare statutes and regulations.

Employees Covered by Benefit Terms

At June 30, 2020, the following employees were covered by the MMEHT Plan benefit terms:

Inactive employees (or beneficiaries) currently receiving benefit payments	2
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	<u>11</u>
	<u>13</u>

Contributions

The Town's contributions are determined by a rate set out by MMEHT. Contributions from the Town for the MMEHT Plan year ended December 31, 2020 were \$2,901. Employees are covered 100%. Employees are required to contribute 15% for a spouse/family plan if the employee is working over 30 hours. Employees who do not work over 30 hours are required to contribute 100% for a spouse/family.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the Town reported an OPEB liability of \$154,968. The OPEB liability was measured as of January 1, 2020, and was determined by an actuarial valuation as of that date.

Changes in Total MMEHT OPEB liability during the year are as follows:

	Total MMEHT Plan OPEB Liability
Balance at June 30, 2019	\$ 67,410
Changes for the year:	
Service costs	3,692
Interest	2,913
Changes of benefits	(3,186)
Differences between expected and actual experience	56,712
Changes of assumptions	27,530
Benefit payments	(103)
Net changes	<u>(87,558)</u>
Balance at June 30, 2020	<u>\$ 154,968</u>

The change in assumptions reflects a change in the discount rate from 4.10% in 2019 to 2.74% in 2020.

For the year ended June 30, 2020, the Town recognized OPEB expense of \$14,689 related to the MMEHT Plan. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 53,350	\$ -
Changes in assumptions	<u>28,797</u>	<u>5,683</u>
Total	<u>\$ 82,147</u>	<u>\$ 5,683</u>

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - Continued

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For the Year Ended June 30,			
2021		\$	11,270
2022			11,270
2023			11,270
2024			11,270
2025			11,270
Thereafter			20,114
Total		\$	<u>76,464</u>

Actuarial Assumptions

The total OPEB liability in the January 1, 2020 actuarial valuation for the MMEHT Plan was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	2.74%
Salary increases	2.75%, average, including inflation
Healthcare cost trend rates (applied with a grading over 14 years to 4.00% per annum)	
Pre-Medicare Medical	8.50%
Pre-Medicare Drug	8.75%
Medicare Medical	5.00%
Medicare Drug	8.75%
Administrative and claims expense	3.00%

Mortality rates for the MMEHT Plan were based on the RP-2014 Total Dataset Healthy Annuitant Mortality Table for males and females.

The actuarial assumptions used in the January 1, 2020 valuation for the MMEHT Plan were based on the results of an actuarial experience study covering the period June 30, 2012 through June 30, 2015.

	<u>1% Decrease</u>	<u>Healthcare</u> <u>Trend Rates</u>	<u>1% Increase</u>
Total OPEB liability	\$ 135,186	\$ 154,968	\$ 179,263

Note I - Pension Plan

Plan Description

The Town provides pension benefits to eligible employees through cost sharing multiple-employer defined benefit pension plans (pension plans) administered by the Maine Public Employees Retirement System (MainePERS) and is part of the Participating Local District (PLD) Consolidation Plan. Permanent Town employees working full time are included in the pension plan. MainePERS issues a publicly available financial report that can be obtained on the MainePERS website. There are currently nine active participants from the Town.

Benefits Provided

MainePERS provides retirement, disability, and death benefits to plan members. Retirement benefits are vested after five years of services. Employees who retire at or after age sixty or sixty-five (depending on their normal retirement age) with one year of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to two percent of the average of their highest three years earnings per year of service. Cost of living increases are available for services rendered after July 1, 2008. The maximum annual increase is 3%.

Notes to Financial Statements - Continued

Town of China, Maine

Note I - Pension Plan - Continued

Benefits Provided - Continued

Disability benefits may be available if an employee participating in the plan becomes mentally or physically disabled while in MainePERS-covered service and is permanently unable to perform the duties of his/her position. The amount of the disability benefit is either 66 2/3% or 59% of the average final compensation, depending on the date the employee was hired.

Ordinary death benefits are available if death occurs before retirement. Beneficiaries can receive either a lump-sum refund of the employee's contributions and interest or a monthly benefit. If death occurs as a result of an injury while working or while the employee is working, accidental death benefits are also available.

Contributions

Contribution requirements are set by the MainePERS Board of Trustees. Participants were required to contribute 8.1% of their annual gross salary to the plan and the Town is required to contribute 10.0% for the year ended June 30, 2020. Contributions to the pension plan from the Town were \$40,331 for the year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a liability of \$117,139 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all PLDs, actuarially determined. At June 30, 2019, the Town's proportion was 0.038322% which was an decrease of 0.004134% from its proportion measured as of June 30, 2018.

Notes to Financial Statements - Continued

Town of China, Maine

Note I - Pension Plan - Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - Continued

For the year ended June 30, 2020, the Town recognized pension expense of \$37,108. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 13,870	\$ -
Net difference between projected and actual earnings on pension plan investments	-	29,341
Changes of assumptions	5,933	-
Changes in proportion and differences between Town contributions and proportionate share of contributions	3,745	9,247
Town contributions subsequent to the measurement date	40,331	-
	<u>\$ 63,879</u>	<u>\$ 38,588</u>

Deferred outflows of resources and deferred inflows of resources on the previous page represents the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

Of the amount reported as a deferred outflow of resources related to pensions resulting from Town contributions subsequent to the measurement date, \$40,331 will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30:</u>	
2020	\$ 5,817
2021	(15,760)
2022	(5,077)
2023	(20)

Notes to Financial Statements - Continued

Town of China, Maine

Note I - Pension Plan - Continued

Actuarial assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>2019</u>
Inflation	2.75%
Salary increases	2.75% plus merit component based on employee's years of service
Investment rate of return	6.75%
COLA	1.91%

Mortality rates were based on the sex distinct RP-2000 Combined Mortality Table, as appropriate, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actual experience study for the period June 30, 2012 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Public equity	30%	6.0%
Private equity	15%	7.6%
Traditional credit	7.5%	3.0%
Alternative credit	5%	4.2%
Real estate	10%	5.2%
Infrastructure	10%	5.3%
Natural resources	5%	5.0%
U.S. Government	7.5%	2.3%
Risk Diversifiers	<u>10%</u>	5.9%
	<u>100%</u>	

Notes to Financial Statements - Continued

Town of China, Maine

Note I - Pension Plan - Continued

Discount rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from Towns will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.75%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1% Decrease (5.75%)	Discount Rate (6.75%)	1% Increase (7.75%)
Town's proportionate share of the net pension liability (asset)	\$ 266,836	\$ 117,139	\$ (22,887)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued MainePERS financial statements. The plan's fiduciary net position has been determined on the same basis as that used by the plan.

Note J - Deferred Compensation Plan

For employees who do not qualify for the PLD Consolidation Plan through MainePERS, the Town offers a deferred compensation plan created in accordance with Internal Revenue Code section 457. The plan permits the employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The plan offers a matching contribution equal to the greater of the MainePERS contribution for the PLD Consolidation Plan (10% for the year ended June 30, 2020) or 7%.

All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are solely the property and rights of the participants. All assets are protected from any claims on the Town and from any use by the Town other than paying benefits to employees and their beneficiaries in accordance with the plans.

Notes to Financial Statements - Continued

Town of China, Maine

Note J - Deferred Compensation Plan - Continued

The Town's contribution to the retirement plan was \$14,075 for the year ended June 30, 2020.

Note K - Tax Increment Financing District

Under Maine law, the Town has established a Tax Increment Financing (TIF) District to finance a development program to improve China Lake access at the China Causeway and the South China Boat landings to enhance tourism, boating, fishing and foster new business development in the area; to help create interest in a commercial venture at the Lakeview/Town property district to promote a water quality or similar activity; and, to provide funds for a variety of town wide economic development activities.

The acquisitions and improvements made by the Development Program will result in additional investment, creating additional tax base within the Town.

The fiscal year ending June 30, 2020 is the fourth year tax revenues were retained and made available for the project. The amount of captured tax increment revenues was \$395,480. The TIF Program also contains a Revolving Loan Fund. At June 30, 2020, the balance due to the Town related to this Fund was \$23,267. It will be paid back to the Town in monthly installments of \$472 at 5% interest through June 2025.

Note L - Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the Town either carries commercial insurance, or is effectively self-insured. Currently, the Town carries commercial insurance for any risks of loss to which it may be exposed.

Based on the coverage provided by commercial insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded at June 30, 2020.

Note M - Related Party Transaction

A member of the Town's Selectboard performed roadwork for the Town. The amount paid for these services was approximately \$82,000 for the year ended June 30, 2020.

Note N - Budget to Actual Reconciliation

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

Budgetary Basis:

Revenues and Other Sources Over (Under) Expenditures and Other Uses	\$ 98,431
---	-----------

Sources/inflows of resources reconciling items:

The Town budgets property taxes on a gross basis but a portion of the property taxes levied are recognized in special revenue funds under generally accepted accounting principles.	(395,480)
---	-----------

Interest income allocated to assigned balances not included in general fund operating budget	7,648
--	-------

Miscellaneous income allocated to assigned balances not included in general fund operating budget	8,086
---	-------

Uses/outflows of resources reconciling items:

The Town does not budget to use assigned fund balance amounts which have been expended during the current year (See Note O):

Reserve expenditures	(104,136)
----------------------	-----------

Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes	<u>433,172</u>
--	----------------

Generally Accepted Accounting Principles Basis:

Revenues and Other Sources Over (Under) Expenditures and Other Uses	<u>\$ 47,721</u>
---	------------------
