

Establish raised bed community garden and hoop house on China property with designated caregiver;

Height of lake water is too high causing erosion. ;

Offer a town owned swimming area so China residents without water frontage dont have to drive to another town to enjoy swimming.;

Add sidewalks on Causeway road going to the boat launch;

Anything other than those 4 I left.;

Create grant or zero interest fund for residents to switch to heat pumps or solar energy.;

Disaster fund for things like wind downed trees in China's cemetery ;

More support for libraries;

Municipal water supply or free well tests & replacements if needed;

Alum treatment for north basin to stabilize phosphorus in lake;

Extend rip wrap for shore lands.;

Fund for citizens to install solar panels as a subsidy to taxpayers;

More stringent phosphorous controls during construction. ;

No grant money;

Restore China Lake's water level to its natural state, which will reduce shoreline erosion around the entire lake, not just at S. China Town Landing. ;

Senior Housing;
