

Thurston Park Committee
Minutes of June 29, 2023

In Attendance: Steve Nelson, Sonia Nelson, Trevy Bumps, Jen Smith

This meeting was held at Thurston Park.

The minutes of the May 18, 2023 meeting were approved unanimously.

The group discussed the new signs needed in the park and further repairs and improvements needed in the park. The Waterfall Trail is now open and ready for use. It needs to be marked with trail paint and trail signs put up.

We discussed the building and Steve Nelson is still trying to find someone to pour the concrete pad. He will continue to work on this. Once the pad is in place the building should go up quickly.

Trail 1 and Trail 2 need significant repairs due to the December 23, 2023 storm. This will likely use up a significant proportion of the 2023-2024 TIF funds. Steve Nelson will work on getting estimates for that work.

We also spent some time chatting with visitors at the park. We discussed their thoughts on the park and invited them to join our committee to work on further improvements in the park.

The next meeting will take place on Thursday, August 17, 2023, at 6:30 PM at the park.

Respectfully submitted,
Jeanette “Jen” Smith
